

PESTICIDE NOTICE

The Fulton City School District is a pesticide free district.

However, if an emergency application is necessary to protect against imminent threat to human health, this district will make a good-faith effort to notify in writing all persons in parental relations and staff members prior to the emergency application.

If the product used falls under those classified as exempt under education law 409.H, the notification is not required.

For more information on the district's pest management policies and procedures please call Jerry Seguin, Director of Facilities, Operations and Transportation, at 593-5526.
